New State Arsenal.—Brigadier-General Duryes and Colonel Samuel Graham, on the part of the military of the Gounty of King, are now negotiating with the Commissioners of the old Waishout Burying Ground for the purchase of 16 lots whereon to erect a new State Arsenal, for which the sum of \$40,000 has already been appropristed. Workmen have been for some time past engaged in the work of exhuming the remains of those interred in his ground, and preparing it for building purposes. The sum of \$800 per lot has been offered for the ground, but the Commissioners want \$4,000 per lot. The matter will be settled in a day or two, or the Committee will proceed to malect another size. The work of erecting the building will be commenced immediately on the purchase of the land. It will be of brick and stone, 200 by 60 feet, and two stories high. It is the intention of the Committee to proceed forthwith with the crection of the building, as the money is all ready and the plane all drawn. Should this site not be selected, one equally as favorable will be immediately. The present site is on Canton street, near the foot of Trillery Street. NEW STATE ARSENAL .- Brigadier-General Duryes

REPAIRING STREETS.—The Commissioner of Re-REPAIRING STREETS.—The Commissioner of Repairs and Supplies sent a communication to the Common Council, at the last meeting, in which he suggested the propriety of raising money for the purpose of repairing the streets of the city. The streets or rearly all of them, are in need of repair, and the Commissioner urges the Common Council to make the necessary appropriations in order to afford work to those in want of it during the coming Winter. The work must be done at some time, and it is as well to commence now as at a future time. The subject was referred to the Finance Committee.

ALARM OF FIRE.—There was an alarm of fire about 5 o'clock last evening, caused by a chimney in Degraw street.

FATAL ACCIDENT.—On Monday morning, Capt. Samuel Rose of No. 25 Willoughby street met with an accident which terminated his life yesterday norning. He was engaged in the yard of his residence in cleaning a pair of pistols, and had eleaned one and reloaded it, and had fit by the side of the other. A moment after, he took up the pistol he had just loaded, by mistake, and holding it in his hand by the muzzle, accidentally struck it against the door, when it exploded, and the entire charge entered his left side, passing through the body and out ander his right arm. He lingered until yesterday morning, when he died. He was about 45 years of age, and leaves a family. Capt. Rose was formerly engaged in the shipping business in New York, but had retired from sea some years.

FIGHT PREVENTED.—On Monday evening a party of rowlies assembled at the foot of Gold street to have a prize-fish. Captain King of the Second Precinet was apprised of the affair and soon after appeared on the ground with a posse of men and dispersed the fighters. No arrests were made, as no over; set was committed.

TOMPKINS SQUARE.—On Monday evening a number of property-owners liable to be assessed for improvements on Tompkins aquare petitioned the Common Council to be permitted to defer the payment of their assessments, without default, in consequence of the "bard times." The matter was referred to the Law Committee for report.

Pay.—The Hudson County Court, Judge Ogden, presiding, respensed yesterday morning, at 10% o'clock. After the usual pre-kininary business, Mr. Littell, the District Attorney, saved that the case of Gueva be taken up for fual disposition, where upon the Judge sent for the prisoner, and he soon after made his spearance, accompanied by his father, and took his seat within the bar.

that the case of Gueva be taken up for final disposition, wheremoson the Judge sent for the prisoner, and he soon after made his appearance, accompanied by his father, and took his sest within he bar.

Mr. J. W. Bondder addressed the Court at considerable length in behalf of the prisoner. He thought the crime of which Cueva had been convicted was not of that aggravated character which should be punished with imprisonment, and that, considering his extreme youth and all the circumstances connected with the case, the Court would be doing all that was demanded by justice in imposing the fine provided for in the sew. At the conclusion of his speech, Mr. Soudder presented to the Court a number of petitions asking that the prisoner be released with the infliction of a fine. Among these petitions was one signed by 10 of the 12 Jurymen who tried the case. Mr. A. O. Zabriskie also made a speech in behalf of the defendant, reviewing the law, and commenting upon the object of that this provision relative to fine for maniaughter. He thought that this prevision was expressly designed to meet case of this character, which were surrounded by mitigating circumstances, and that the Court would be doing its whole in this instance by imposing a fine.

Mr. J. Dunn Likitell responded on the put of the State, and said.

and that the Court would be doing its whole in this instance by imposing a fine.

Mr. J. Dunn Littell responded on the part of the State, and said that however pairful it might be, he felt it his dety, as a public officer to oppose the appeals which had been made, as he could regard them in no other light than an attempt to defeat the ends quatice. He thought there was nothing shown in the petitions presented, except the sympathy of the petitioners, and by this the Court should not be in the least influenced. The simple siming of the defendant would be tratamount to an acquitted, thasmuch as it would only punish the parent and not the son, and he hoped that the Court, regardless of sympathy, would impose such a penalty as was demanded by the facts, and such a crea as might have the affect of deterring others from the commission of like arimes.

Judge Ogden said that the Court did not feel prepared to pass its judgement without further deliberation, and that sentence would therefore be postponed until the opening of Court this morning.

BODY FOUND IN THE WATER.—On Monday night the dead body of a man was found floating in the North Rilver, near the Morris Canal pier, Jersey City, and was taken in charge yesterday morning by Justice Bedford. The body was evidently that of a German, a large, muscular man, about 40 years of age and was dreved in a black cloth coat, gray pants, a black satin vest, a spotted cotton shirt and red farmel undersbirt. A silver watch a knife, a number of letters ad dressed to persons in Germany, and \$65 in money, were found in the pockets of his clothes. From the letters found it is supposed that his name was Nicholau Wertner, and that he had lately left Mascoutah, St. Clair County, Ill, and was on his way to Germany. One of the letters found was written by Henry Schlicher, a utilier, of the above piace, and intrasted to deceased to deliver in Germany. There were also three other letters at dressed to parties in Germany, in one of which a resultance of all is appeared to the hody had evidently been in the water about ten days. There were no marks of violence, and it is supposed that he must have fallen from some ferry beat or what and socidentally drowned. It is thought that he must have both money and to find it. The body will remain unburried for a few days, in charge of Justice Beddard, for the purpose of identification.

HIGHWAY ROBBERY.—Mr. R. Paulison, the Surrogate of Bergen County was the victum of a bold robbery las week. According to The Paderson Guardina, he was returning from Hoboken, and near Weehawken Hill he was stopped by some strangers who told him his wheel was coming off. They assisted him to replace it, and as he was about getting into his wagon again they threw a hag ever his head and robbed him of his gold watch and #8, and then left him with the bag ever his head and tied about his waist so as to inclose his arms. They left him in that condition, from which he was finally released by a farmer who discovered his situation.

BROOKLYN CITY COURT-Nov. 16.—Before Judge

William H. Mershon sgt. The Brooklyn City Reliread Co.

This was an action brought by plaintiff to recover damages for the loss of here and personal injuries to himself, the former of which was killed, and plaintiff sustaining injuries to himself, the former of which was killed, and plaintiff sustaining injuries by reason of m accident which occurred at Greenpoint on the 28th of Agrik, 1369. The damages olaimed are \$10,005.

It appears from the complaint in the case that on the above day plaintiff was driving a horse and wagon across the grating of a colvert over the railroad track, at the corase of Franklin and National avenues. Greenpoint. The wheels of the wagon went between the bare of the grate by which the wagon became upset, and plaintiff was thrown out and injured so severely as to be comised to his house for five months. The horse-lyvaloned at \$600, took fight from the overturning of the wagon, and ran into the river and was drowned. Plaintiff seeks to recover on the ground that the Railroad Company were gailty of neallgence.

Defendants in narwer put in a general denial. Teatimony was taken yesterday, and it was proved that the bare of the gratings were sufficiently wide spart to admit the wheel of a wagon and cause an accident of the nature stated. The case was adjourned to this morning.

COMMERCIAL MATTERS.

| Section | Sect Sales at the Stock Exchange ... Nov. 10. | SECOND BOARS. | Second Boars

TUESDAY, NOV. 10-P. M.

There was a slight reaction from yesterday's prices at the first Board, and rather a dull feeling, with, how-ever, but slight decline in prices. The bayers were mostly for short account. New-York Central drooped a trifle, but was one of the strongest stocks on the list, on account of the scarcity of cash stock for delivery on maturing contracts. Illinois Central Bonds were in active demand, partly for shorts and partly on foreign account. The sales at both Boards reached \$66,000, closing at 82, an advance of 31 P cent for the day. There was no particular movement in Teledo, Michigan There was no particular movement in Teledo, Michigan Southern, Reading or Erie, all closing steady, but without activity. Illinois Central Stock was a fraction lewer, closing at 87½. Michigan Central sold at 51, and was in demand upon the announcement of the taking of the new loan in London, reported at 70. The Barings are said to be the negotiators. This, if true, will give the Company \$1,400,000, and with the net earnings reserved from dividends for the next six months, and possibly a year, enable the Company to extinguish its floating debt. At the Sec-ond Board the market was firmer and quotations better than in the morning. New-York Central, particularly, was in demand, with sales at 694. Erie and o were strong. State securities are steady. without much variation. The sales were not quite so large as asual. There is a disposition shown to await the news by the Arabia before extending stock opera-tions. The market has been largely oversold by the bear interest, or the apathy of the market would have told more forcibly on prices to day. The Bank statement, thought extremely favorable, had little or no effect. There was considerable demand between Boards for cash stock of the New-York Central, but a large number of contracts must have been closed within a few days. The leaders in the upward movement were not prominent operators in the stock to-day.

The mail by the steamer to-morrow will be a fair one. The supply of bills, especially Sterling, has been in excess of the ability of remitters to purchase, and the rates show a decline of | 21 i' cent on the highest point. Good commercial bills have been sold at 106 @ 107, and bankers' at 108 a 1081, the bulk of the transactions being at 108. The range is 106 2 1081. The supply of bills from New Orleans, it is anticipated, will be con largely increased. The Cotton market at that point has assumed an appearance of some activity, and better prices are obtained.

Freights are steady. To Liverpool the engagements are 1,400 bbls. Flour at 2s. 3d.; 20,000 bush. Grain at 9d. in bags; 350 bales Cotton at 5-32 # 3-161. To London, 750 bbls. Crude Turpentine at 3s. 6d,; 4,000 bush. Grain at 10d.; 1,000 boxes Cheese at 37s. 6d.; 1,000 boxes Tea at 27s. 6d. To Glasgow, 10,000 light Pipe Staves at 40s. Pursuant to notice, the Committee appointed at the public meeting held in Jersey City last Thursday evening, to confer with the citizens for the purpose of raising funds to aid the New-York and Eric Railroad Compasy in completing their terminus, &c., in Jersey City, met at the office of D. S. Gregory last evening (Monday, Nov. 9). The subject was thoroughly gene over by the Committee, and discussed at length. The Hon. Samuel Wescott, Mayor of the city, manifeeted a deep interest in the subject, and said that this, being a work of so much interest to the citizens of Jersey City, and being so nearly completed, he thought they should contribute to the rull extent of their ability rather than let the work be stopped at this time, the completion of which would secure to them the greatest railroad termines in the United States, and by which every citizen would be benefitted more or less.

Measures were discussed to secure \$250,000 to the New-York and Eric Railroad Company, to aid in the completion of their terminus, when the Committee adjourned to meet next Thursday evening at the office of the Hon. D. S. Gregory, No. 1 Montgomery street.

We hear of no quotable change in discount rates. Transactions in paper continue to be confined to a small list of very choice names, but there are indications of returning confidence, except for dry-goods paper, which seems to be regarded with especial dis-trust. The Banks are easy, and disposed to accommodate to any reasonable extent, but are obliged to sorutinize paper offered for new loans more closely than usual. We cannot find that any serious intention of resuming specie payments before Spring is entertained, though some of the strongest institutions are in good cordition to commence at once. The inequality is so ereat, however, that the attempt would be hazardous and oppressive to the weaker concerns. So far as accommodation to customers indicates the fact, there is practically no suspension, most of the banks paying out coin over their counters for all ordinary business conveniences. A general restoration in confidence and more easy working of the machinery of business, together with a more equal and natural movement in domestic exchanges, should precede resumption. The equilibrium of trade and finance measurably restored, the Barks can venture upon the step without fear of unsettling matters, and with no fears of inability to sustain themselves. Resumption could not take place at present without imposing a degree of restraint which would perhaps make the remedy as bad as the

The St. Louis Republican, speaking of the probable effect of the Relief bill, says:

"What will be the effect of this law? There are many persons who entertain vague and ill-defined notions about its operation. They seem to think that it will flood the State with notes of the suspended banks, and that they will, in consequence, be greatly depreciated. With some this idea is the result of the want of reflection; with others, it originates in a desire to produce mischief, and add to the severity of the pressure. A few words will set this matter right. The whole amount of notes which the Bank of the State of Miscouri and her five branches can use and circulate is about \$1,700,000, "countersigned and registered," and issued to them, or that can be issued to them, under this law. Of this amount, according to the last estimate of the Bank at St. Louis, she had about \$300,000 in circulation leaving \$800,000 which she may yet issue, and giving to the branches \$600,000. Not a dollar more than this \$1,700,000 can be put into circulation from this bank and branches.

"The Bank Commissioner has issued to the Mercharts' Bank about \$300,000; to the Southern Bank about \$300,000; and we suppose that the Farmers' Bank at Lexington has received about \$200,000 of 'countersigned and registered' paper. It is those notes alone upon which the banks and branches can do business, and this aggregate sum of \$2,580,000 is, if we mistake not, less than was put into circulation by the old Bank of Missouri in her palmy days. Nobody complained of that circulation, and nobody will complain tow who reflects upon the extent of our commerce and the ordinary wants of daily transactions. It will not displace the coin at all, and before the Legislature adjourns there will not be a difference of 1 the whole State tax is collectable in notes of the Bank of Missouri and her branches; and by an ordinance of the there has only a suppress of the county of the bank and branches, but the notes of all the other missouri banks, a

The following is a translation of the circular of Marié & Kanz:

New-York, Tuesday, Nov. 19, 1857.

Our last advices were to the 2d inst. Matters continue to improve; money is steadily growing more abundant. Stocks again show a heavy advance, which is felt by all classes of securities, but especially Bank Stocks. The Domestic and Foreign Exchanges likewise show a marked tendency to return to their legitimate level. All that is now required to restore confidence is to accretain the full effect of our crists in Europe, and to arrive at a conclusion to the discussions which are new occupying our backs as to the proper time for resuming specie payments. Our last advices from Liverpeol are to the 28th alt. 49 Canada, which brought out \$1,200,000 in gold. The next news will announce the effect produced in Europe by the suspension of our backs and of the three great Railroad Companies, and is awaited with great anxiety.

As to the resumption of specie payments by the City Banks, the only thing that complicates the question is the position of the Country Banks of this State, which had on the 20th September last, but only \$1,022,000 in specie, against \$19,322,000 of circulation, and \$10,900,000 of deposits.

The orders for American Stocks, on foreign account, have been considerable for the past mouth, and have been directed more particularly to State and City Bonds, and to the shares of a few heading Railroad Companies, but particularly those of the Illinois Central.

STATE STOCKS show a great rise, with active purchases for investment the sales amounting to \$600,000, running chiefly on Missouri, Virginias, New Yaek and Ohio. "New-Yoak, Tuesday, Nov. 10, 1857.

"The tone of the market in general continues to improve. The effect of the accumulation of themployed capital, which we thought probable, has shown itself during the week in the increased facility with which loans on call are made, without having had much influence, nevertheless, on the discount of paper, which is still regarded with great circumspection by capitalists. The movement of specie, both from Europe and elsewhere, toward New York is rapidly strengthening the position of the banks here, whose metallic reserve now amounts to \$16,49,132; and although the present steamer takes out a large sum in only, the effect on the stock market has been an increased activity, and a gradual but steady advance during the past week. The news from England to the 24th October, by the Canada, which was considered less unfavorable than could have been expected, and the execution of some orders to buy stocks for European account, have contributed to this upward movement. There is no great alteration to notice in the domestic exchanges.

"State Stocks have been active, with ageneral rise. The principal transactions have been in New-York 5s and 6s, at a rise of from 234; in Ohio Ga, at a rise of 3; in Missouri 6s, of 61; and in California 7s, of 425 weent.
